

Research Methodology

Class English F100B
GISMA UNIVERSITY

Prepared By Emran Azizi

All Data searched by myself
and then Analysis in paper.

Information is based on a
literature review.

Research introduction

I had a few research during this year in my university and I prepared some article and topic by using online data research and it was very useful for me. I tried to create best topic with best details by searching in way that quality and quantity of information protected then I describe it.

One of the topic that I had research on it is Technology and technology developments

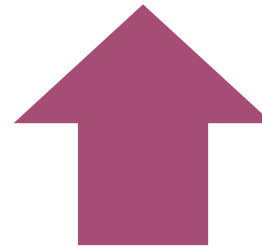

Introduction

- Technology is a set of tools or devices that created by Humans Knowledge or every thing in Earth which created by humans is Technology.

Research method pathway

Research Goal is for giving information about technology and to be able to have a full information about (What is technology)?

Qualitative

Quantitative

Qualitative Part

- In qualitative part I showed how technology was in pervious decade and centaury and what is technology based on a creation or a tools or something else.

Quantitative Part

- In Quantitative part I discussed about Thematic Analysis. To have a determine about technology difference ,then I searched about benefits of Technology in future and Now.

All research was online from

(<https://scholar.google.com/>)

Searching Source Key Points

- From online books PDF and university article PDF. All data collected about my paper research
- Text citation and reference list used because of having a Transparency literature review.

Research Tips

- Research Planning
- Data Collection
- Data Analysis
- Conclusion and presentation of findings

CONCLUSION
